ORGANIZATION

OF THE

City Government, January 4, 1904.

The Mayor and Council met at the council room at 7.30 o'clock, on the afternoon of the first Monday of January, 1904. Mayor Blodgett called the council to order at 7.30 o'clock and, there being no valedictory, after hearing the records read by City Clerk Daniell, the Council adjourned. The City Clerk then administered the oath of office to Mayor-Elect Isaac N. Blodgett and the mayor then administered the oath to Councilmen-Elect Charles N. Emerson, Samuel B. Chadwick, Albert S. Eastman and John W. Staples.

The Mayor gave no inaugural and the Council proceeded at once to the business of the session.

HIGHWAY DEPARTMENT.

Highway Commissioner's Report.

To the City Council of the City of Franklin:

I herewith submit the following report, as Highway Commissioner of the City of Franklin, for the year 1904.

The macadam has been repaired on Central street, from the Sanborn bridge to the Republican bridge, on Main street, from the needle shop to Anderson avenue, and on Depot street, from South Main street to the depot. The bridge on No. Main street, near the needle shop, the Fogg's hill bridge on South Main street, the bridge on Summit street and the Carr bridge, are entirely new. The other bridges have been thoroughly repaired and are in good condition.

Some 1000 feet of the Sand road, so called, has been covered with ashes and hard pan. The outside roads have been thoroughly gone over and are in good repair.

Have purchased a new street scraper for \$200.

JAMES C. NOWELL,

Highway Commissioner.

List of Property in My Possession, and Estimated Value

FIRE DEPARTMENT.

ENGINEER'S REPORT.

To the Hon. Mayor and City Council:

I herewith submit my report for the year ending Dec. 17, 1904.

The department consists of chief engineer and four assistants; hose company No. 1, 10 men; steamer and hose company, 15 men; hook and ladder company, 15 men.

The department responded to 19 bell and 17 still alarms.

Following is a list of the fires:

January 2. Still alarm for chimney fire in the house owned by the Canado Americaine on Central street. No loss.

January 16. Alarm from box 23 for fire in the gas house on West Bow street. Damage, \$150; no insurance.

February 3. Still alarm for chimney fire in house owned by John Lang on Spring street. No loss.

February 9. Alarm from box 34 for fire in house owned by Frank Holt. No loss.

February 10. Still alarm for chimney fire in house owned by Gledhill Peel on Spring street. No loss.

February 11. Still alarm for chimney fire in house owned by Mrs. C. C. Kenrick on Smith street. No loss.

February 12. Still alarm for chimney fire in house owned by Mrs. Sleeper on Prospect street. No loss.

March 6. Alarm from box 25 for fire in house owned by Mrs. John Newton on Franklin street. No loss.

March 10. Alarm from box 25 for fire in Shepard block, at the corner of Central and Franklin streets. Occupied on the first floor by Shepard Bros. grocery store and Miss Messier's millinery store; second floor used as a boarding house by Mr. Hackett, and T. O. Calley, printing establishment; third floor used by roomers. Building valued at \$8,000; damage to building, \$4,000; insurance paid on building, \$4,000; stock of groceries valued at \$5,000; loss, \$3,000; insurance paid, \$1,950. Furniture valued at \$1,000; insured, \$300; insurance paid, \$300. Miss Messier's stock valued at \$2,000; insurance, \$1,000; loss, \$733; insurance paid, \$733. T. O. Calley's stock and fixtures valued at \$1,500; insured, \$900; loss, \$400; insurance paid, \$400. Mr. Hackett carried no insurance.

March 11. Still alarm for chimney fire in house owned by Jabez Smith on Prospect street. No loss.

April 15. Still alarm for fire in house owned by J. Ryan on West Bow street. No loss.

April 19. Special call for fire in the Morrison mills at Tilton.

April 23. Still alarm for brush fire on Terrace road. No loss.

May 4. Still alarm for fire in house on Franklin street. No loss.

May 11. Special call for fire in wood pile owned by F. M. Edmunds, near Webster lake. Loss, \$12.

May 24. Still alarm for fire in brush on the plains, near house of S. F. Bohonan. No loss.

June 19. Still alarm for brush fire at the Webster place. No loss.

July 9. Alarm from box 22 for fire in the barn on Railroad street, owned by F. E. Flanders. Value, \$150; insured, \$50, insurance paid, \$50. Contents valued at \$25, not insured.

July 17. False alarm rung from box 34.

July 19. Special call for fire in woods near Giles mills.

July 20. Still alarm for fire in woods near Giles mills.

July 20. Special alarm for fire in lumber lot on the Tilton road. Lumber valued at \$9,500, loss \$7,000 ; no insurance.

August 9. Still alarm for chimney fire in house owned by M. Duffy on Pearl street. No loss.

August 11. Still alarm for brush fire at Franklin Junction. No loss.

August 28. Special call for fire in the woods near the Webster birth place. Loss, \$50 ; not insured.

September 6. Still alarm for chimney fire in house on Central street, owned by the International Paper Co. No loss.

October 10. Still alarm for fire in the house of Louis Laplante on the Plains. Total loss. Not insured.

October 23. Alarm from box 25 for fire in storehouse of L. N. Johnson, in the rear of Central street. Building valued at \$150 ; insured, \$75 ; insurance paid, \$50. Contents valued at \$225 ; insured, \$225 ; insurance paid, \$25.

November 6. Still alarm for chimney fire in house owned by Kelley Bros. on Franklin street. No loss.

November 14. Alarm from box 25 for fire in Switch board of the Citizens Telephone Co. on Central street. No loss.

April 14. Alarm from box 25 for fire in house owned by E. G. Leach on Nesmith court. Valued at \$2,000 ; Loss, \$25 ; insurance paid, \$25.

November 15. Special call for fire at Bristol.

November 29. Alarm from box 25 for fire in the laundry building on Memorial street.

November 30. Alarm from box 16 for fire in Sargent block, off Salisbury street. Building valued at \$2,000 ; insured, \$1,200 ; loss, \$17.50 ; insurance paid, \$17.50.

December 2. Alarm from box 25 for fire at Young's hotel on Central street. Building valued at \$6,000 ; insured \$6,000 ; loss, \$75 ; insurance paid, \$75.

December 3. Alarm from box 25 for chimney fire in house owned by P. L. Kennedy on Canal street. No loss.

The fire alarm system has about seven miles of wire and nine alarm boxes.

The equipment of the department consists of the following:

CENTRAL STATION.

One hose wagon.

One sled not fit for use.

One hook and ladder truck. First class in every respect.

One Amoskeag steamer in fine condition.

One extra 55-foot extension ladder.

Thirteen hundred feet good 2 1-2 inch rubber lined hose and 500 feet new 2 1-2 inch rubber lined hose.

At hose No. 1 house on Main street there are:

One hand reel.

One hand sled.

One hand engine in good condition.

Eight hundred feet good 2 1-2 inch rubber lined hose.

No. 3 reel, situated in shed near No. 1 paper mill, has 350 feet of good 2 1-2 inch rubber lined hose.

No. 4 reel, situated on Prospect hill, has 450 feet good 2 1-2 inch rubber lined hose.

No. 5 reel, situated on Pearl street, has 400 feet good 2 1-2 inch rubber lined hose.

During the year the hose wagon and the hook and ladder truck have been equipped with hanging harnesses, and the time saved, in making hitches, has been the means of making good time at most of the fires. The department has been furnished with new coats.

In making our recommendations for the ensuing year, we would ask that the city keep the horse and man, now kept at the city stables, at the engine house, he to take care of both places, and his room at the stable to be used by the man who drives the hook and ladder horses. We would recommend that a combination hose and chemical wagon be bought and placed in the central house and the hose wagon there now be placed in the house on Main street.

We recommend that the city purchase 500 feet of new hose. Also at least six pony chemicals, to be placed in buildings on Main and Central streets, that are always

open ; that they may be handy for any one to use, who should discover a fire.

We would recommend that some kind of a heating apparatus be put into the central station, as we think it would be as cheap and do away with the stoves now in use—that we consider dangerous.

We also recommend that two new alarm boxes be added to the system.

Also that the firemen be provided with regulation fire hats, for protection to their heads.

In closing, we wish to thank the City government for the improvements made during the year. And also the highway department for promptness in getting the apparatus out at every alarm.

NED BUNTON, *Chief*,
ALONZO MESSER, *1st Assistant*,
GEORGE F. GARNEAU, *2nd Assistant*.
HARRY E. COLBY, *3d Assistant*,
CHARLES H. BEAN, *4th Assistant*.

LOCATION OF ALARM BOXES.

- 14—At the corner of Webster and Main streets.
- 15—Private box at the Odell hotel.
- 16—At the corner of Depot and Main streets.
- 21—Near the center of Bow street, near Quindley's stable.
- 22—South end of Franklin street.
- 23—At the corner of West Bow and Central streets.
- 25—At the corner of Franklin and Central streets.
- 31—At the corner of Prospect and School streets.
- 34—At the corner of Central and Maple streets.

BOARD OF HEALTH.

REPORT.

To His Honor, The Mayor, and the City Council of the City of Franklin :

The report of the board of health of the city of Franklin for the year 1904 is submitted herewith :

During the year this board has issued 135 burial permits. 91 have died in Franklin and 32 bodies have been brought here.

There have been reported to this board 72 cases of typhoid fever, 11 cases of scarlet fever, 1 case of measles, 20 cases of diphtheria.

During the year there have been two epidemics of typhoid fever, one of thirty-two cases and one of forty cases a total of seventy-two cases. Of this number, five died. These epidemics were a source of great anxiety to this board as well as to the citizens of the city generally. The cause was traced almost directly to the impurity of the public water supply.

During both epidemics there was an insufficiency of spring water which necessitated pumping water loaded with bacteria from the river into the public system.

It is a lamentable fact that no official public notice was given *previous* to the use of the river water by the Water Works Department. Notice was given *after* the river water was used, but too late to avert the epidemics. As soon as this board was apprised of the conditions notices were given to those in charge of the pub-

lic and parochial schools to cut off the public water supply, and notices were issued to the public in the newspapers warning them of the danger of drinking the water and advising them to boil it before using it for domestic purposes. Said advertisement still appears in the local newspaper.

It is a source of great satisfaction to the board of health to learn that active operations are now being made for the purpose of securing an additional and adequate supply of water of good quality.

With the exception of the aforesaid epidemics the public health has been excellent.

Notwithstanding the unusual number of typhoid cases the fatalities were proportionately less according to the number of cases in 1904 than in 1903.

In 1903 the percentage of deaths from typhoid fever was .10 ; in 1904 the percentage of deaths from typhoid fever was .07 ; in 1903 the percentage of deaths from scarlet fever was .079 ; 1904 the percentage of deaths from scarlet fever was 0 ; in 1903 the percentage of deaths from diphtheria was .10 ; in 1904 the number of deaths from diphtheria was .05.

In 1903 the number of contagious cases reported was 205, in 1904 the number of contagious cases reported was 104.

There have been 24 fumigations and the average number of vaccinations performed. Sewer connections have been enforced in several instances and nuisances abated.

Many public nuisances it is impossible for the board of health to permanently remedy until the sewer system is extended which we most earnestly recommend.

Weekly and monthly clerical reports to state and national authorities have been promptly made and all official correspondence completed to date.

The medical profession without exception have supported the work of this board for which we hereby acknowledge our grateful appreciation.

C. W. ADAMS, Sec.

A. J. THURSTON,

FRANK H. DANIELL.

FRANK PROCTOR, *Treasurer.*

CITY SOLICITOR'S REPORT.

To the City Council of the City of Franklin :

No suits have been brought against the city during the past year and none now exist. All claims against the city, presented during the year, I have passed upon and reported back to the City Council.

I desire to call the attention of the City Council that, if the practice of sending offenders against the police of towns to the jail is continued, instead of committing to the house of correction, the city will, some day, have a pretty bill to pay. It is not, however, possible to make this a uniform rule.

BARRON SHIRLEY, *City Solicitor.*

LIBRARY TRUSTEES' REPORT.

				\$44,948 68

In addition to the amount expended in thawing frozen pipes, the greater part of the expenditure for meter repairs was occasioned by the severe cold of the last winter. Other repairs were also rendered necessary by the same cause. The expenditure for this purpose, adding a new pump, and investigation in the effort to secure a satisfactory addition to the water supply has prevented any reduction in the water debt. That now stands at \$82,000. The interest charge on this amount, \$2,880, has been paid by the city and is more than offset by the public water service. The Commissioners expect that the investigation now being made in search of an additional water supply will enable them soon to make some definite recommendations upon the subject. Upon receipt of the report of the engineer now engaged upon the matter the commissioners desire to submit a further report, discussing the question and giving an account of what has been done with that end in view.

SETH W. JONES,
EDWARD G. LEACH,

December 31, 1904.

Commissioners.

APPENDIX.

WATER RATES.

All customers are supplied through meters. The minimum charge is six dollars per year, which entitles the consumer to 2000 cubic feet during the year. Rentals are collected quarterly. For the first 1,000 feet or less in each quarter the charge is 30 cents per 100; for the excess over 1,000 feet used in each quarter, 20 cents per 100 feet is charged.

Upon all quarterly bills exceeding \$12.50, a discount of 50 per cent. of the excess over \$12.50 is made.

No charge is made for private hydrants or automatic sprinkler service.

BOARD OF EDUCATION.

SUPERINTENDENT'S REPORT.

To the Board of Education:

I herewith respectfully submit my fourth annual report, which is the fourth in the series of reports of the superintendent of schools in Franklin. During the year much has been accomplished in school work, progress has been made, and strength has been acquired. To be sure, many steps very important to the improvement and development of our school system, for good reasons, have not yet been taken. Those interested in the educational work of our city can often see what is needed, but are powerless to act, either through the lack of financial support or of favorable public sentiment. In work for the people, not much of great importance can be accomplished unless imperative conditions exist and the primary impulses come from the people themselves. School officials may become acquainted with these conditions and by suggestion give rise to the impulses. Yet the fact still remains that the success of public institutions depends largely upon the citizens who form the public. Bearing this in mind, this report will describe in a few words the conditions and needs of our schools, and it is hoped that through it some readers may become more interested in the educational work going on in Franklin.

PUPILS.

It is for the pupils that the institution of the public schools exists. This is occasionally forgotten, and at times we find personal interests being forced to the front in a most injurious manner. This is human nature. Parents, teachers, and public officials are prone to work for personal advantage. On the whole, however, the children of Franklin do not suffer from such causes as much as those of many other cities. Most of the teachers are earnest, efficient workers and are laboring for the welfare of the pupils collectively and individually.

Within the last three years, the number of school children has increased nearly one hundred. This is due in

part to an increase in the city's population, but more especially to the fact that fewer children are leaving school to go to work. During the fall term of 1904, a smaller number of labor certificates was issued than during the corresponding period of the three years preceding. It is hopeful and encouraging when there is an increasing tendency on the part of pupils to remain in school, either from their own desire to learn or because their parents are to an increasing extent realizing the importance of education. Still more can be done along this line, and every effort possible should be made to keep the boys and girls in school until their assistance is absolutely needed at home.

To what extent the public schools will be able to solve the problem of the "bad boy" is still an open question. As is the boy, so is the man. Bad boys fill the ranks of criminals. Boys at even six or seven years of age are frequently violators of the law and are subjected to police inquiry. Often, though known to be guilty of very serious crimes, they are allowed to escape punishment and thus lose their respect for law and order. Several boys of this type have been brought to the attention of the superintendent during the past year, and some special thought has been given them. Considerable individual care and discipline has been bestowed upon them. In some cases marked improvement has been seen. To be sure, there is no guarantee that such improvement will be permanent, yet it is hoped that a little good has been done. The difficulty in dealing with these boys is that the influence of their homes, instead of assisting in building up character, tends more than any other cause to counteract the good influence of the schools. If school influence and discipline could be extended so as to reach these boys with more force and for a greater period of time each day, much more could be accomplished. Another difficulty that presents itself and that stands much in the way of doing permanent good, is the fact that as soon as the boys are fourteen years of age their parents remove them from school and put them in the mills to work, where their unsteady habits make their labor unsatisfactory. Soon they

pass from mill to mill and become more and more irregular in their life. If this class of boys could be kept in school for a longer time, where they would be under restraint and discipline until obedience became a habit with them, many might be saved from institutions of reform and perhaps from useless lives.

Occasionally, in exceptional cases, teachers and superintendent have thought best to give children double promotion. When this has been done, the health, age, and scholarship of the child have always been taken into consideration, and the parents have been consulted. It is not often wise for children to omit or to carelessly pass over work in order to gain a year. School work is arranged in definite order, so that the progress of the normal child may proceed along a regular uniform course, and when a grade is skipped there necessarily follows some irregularity of work. Either a part of the work must be omitted, which is in most cases to be regretted, or double work must be done. This latter is necessarily, on account of the interdependence of one part of school work upon another, the general method of double promotion and is always a serious tax upon health and strength. Parents should be very careful in urging double promotions for their children, or they may unwittingly do more harm than good.

In arranging a course of study, the intent is to give the average pupil a proper amount of work each year. All pupils may not have the same ability or the same power of application, yet it is seldom that a pupil of average intelligence need overwork or fail of promotion. Many of the failures that are attributed to alleged weaknesses in the school system are due rather to the occupations and habits of the pupils outside of the school-room. Doubtless all children should have certain regular duties and pleasures which will show them the relation they, as individuals, bear to the world in general, and to their fellow beings. But, on the other hand, if the friendly visit, the public entertainment, the dancing school, the music lesson, and countless other social obligations are constantly placed foremost in the children's minds, is it any

wonder that their school work is poor and at the end of the year they are worried and fretted for fear that they may not be promoted?

SCHOOL ACCOMMODATIONS.

Last year it was thought that it might be necessary, on account of the increasing number of pupils at the Falls, to finish the division of the hall in the High school building into rooms suitable for school purposes, and to increase the teaching force, both at the Falls and Nesmith schools. The conditions were carefully considered by the board of education, and it was finally decided best, as a matter of economy, at least, not to furnish new rooms but to put the ninth grade under the charge of the High school teachers. When this was done, the two school buildings at the Falls accommodated eighty-five more pupils than they did three years ago, but without extra teaching force.

This solved the question of room for the time being, yet did not afford much relief to the two rooms, which this year contain the sixth, seventh, and eighth grades. The seventh grade was divided. A part was placed with the sixth, and a part with the eighth grade. The two schools thus formed have each registered between forty and fifty pupils. With two grades in a room, this number is really more than a teacher can handle and obtain the best results. Next year the sixth grade will number over forty and will furnish enough work for one teacher. The seventh and eighth will number at least thirty each. Should these three grades be divided as they are this year, there would be two classes and fifty pupils in each room. Such schools would be far too difficult for single teachers and some provision should be made for the proper care of these pupils.

It is possible, also, that more room may be required another year at the Nesmith school. The grammar school, which numbers more than forty and has three grades, will promote to the High school about fourteen pupils. The number coming into the school from the grade below will be over thirty-five. Such an estimate will give the

grammar school nearly sixty pupils. Consisting of three grades, such a school would require at least two teachers.

Perhaps relief for the overerowed schools might be found by introduction of the Batavian system, either in part or in full.

THE BATAVIAN SYSTEM.

In Batavia, N. Y., it came about, through an overerowed condition of the schools, that two teachers were placed in a room. These teachers worked together with such good results that the same method was extended to other rooms, and, finally, a system was evolved which took its name from the town in which it originated.

I will not go into a detailed discussion of the working and success of this system. A brief outline, however, is necessary to the full understanding of this report. In case there is a large number of pupils in a room, two teachers are placed in charge. One looks after the class work alone; the other, the individual work. If in the class a pupil fails, the teacher in charge does not take the time from the class to clear up the difficulty, but makes note of the fact and at the proper time turns the case over to the individual teacher. Thus the deficient pupil is not held up to the observation and often the ridicule of a large class, but is given privately, as it were, such instruction as is specially needed.

Under this system, when there are not many pupils in a room, a single teacher has charge. She so arranges her programme that quite a part of her time each day is given to the individual work and, in this way, accomplishes the same results as the two teachers working together.

It is said that wherever the Batavian system has been tried, the number of pupils not promoted from year to year has been reduced to a surprisingly small figure. This is because the needs of each child are found out and a special effort is made to remedy the trouble. The method does not, as at first appears, take any time belonging to the quicker pupils, as by it they are not forced to listen to explanations with which they are entirely familiar, but

which have given trouble to some members of the class. The time used by the teacher for the individual work may be spent by the pupils not needing extra care in doing more advanced work and in this way, rather than lose, they have opportunity to add much to the amount of their work.

Besides the improvement of the school system and the betterment of the individual pupils, there is a financial side of the question to be considered. No more teachers would be required than under any other system with the same number of pupils, and certainly no more room is necessary. In fact the system originated, as is stated above, from overcrowded schools. A much larger number of pupils may be placed in a room and hence, even with a rapidly increasing enrollment, it might be a great saving in providing school accommodations.

In consideration of the advantages of the Batavian system, would it not be well to institute it in Franklin? Besides offering the best method of instruction to the children, it might help to check the necessarily increasing expenses due to the ever-increasing number of children. I present this for the consideration of the citizens and board of education.

HIGH SCHOOL.

During the year the High school has undergone many changes. Three of the teachers have changed, one new one has been added, and the number of pupils increased by a class.

At the end of the spring term, Mr. L. L. Cleveland, after four years of service, severed his connections with the school to accept a better position in Keene. Mr. F. W. Burrill was elected to fill the vacancy.

In having an extra class, Mr. Burrill has had somewhat more than the usual unfavorable conditions to confront in a new position. He has taken hold of the work in a careful, persistent manner, which will lead to final success. It is hoped that all interested in the school will assist him either by word or by deed whenever there is opportunity.

At the end of the last school year, as has been previously stated in this report, it was thought best to put the ninth grade into the High school. By this arrangement the city was saved the expense of providing more room and a larger teaching force, and, what is perhaps more to the point, the expenditure and labor of the High school and the higher grades of the grammar schools were equalized to a great extent. For the past few years the High school has been very small, while the teaching force has been, comparatively large. In this way the expense per pupil has been somewhat more than it should be. But by giving the High school another class and thus more pupils, a fairer adjustment of labor and expenditure has been made.

Of course this arrangement has not been in existence long enough to thoroughly prove its efficiency and success in the training of children. Still, many advantages are apparent, and many more will appear as time brings about a fuller development of the plan. The children in the ninth grade, or, as they will hereafter be called, the sub-freshman class, are doing about the same work as was done by the first year of the High school four years ago. They have advanced to the point where the subjects they study can be better taught on the department plan and by college-trained teachers. They also need the use of the High school laboratory and other equipment.

For a fuller and more definite account of the work in the High school, I refer the reader to Mr. Burrill's report.

TEACHERS' SALARIES.

Perhaps no subject in the educational world has been more thoroughly investigated within the last three years than that of teachers' salaries. The discussion has covered all branches of educational work and the conclusions have invariably been the same. Teachers are, as a class, underpaid.

A consensus of public opinion demands that the standard of living for teachers shall be high. They must have the very best accommodations the place where they are

affords. They must attend certain social functions; show an interest in much in which their pupils are engaged—whether it be in school or out—attend institutes, visit schools, and answer innumerable demands upon their time and money. In fact, as far as I know, no other class of laborers is obliged, from the very nature of the work, to respond to so many appeals of one kind or another which require an expenditure of money, time, and energy.

But previous to these demands, incumbent upon teachers already engaged in their profession, is a long, expensive period of preparation. Every year the professional requirements are advanced. The young teacher is expected to know the history of education, the psychology of the young mind, the theory of pedagogy, the rules governing school management, and many other subjects, of which the knowledge adds professional proficiency. This preparatory training is generally followed by a struggle for two or three years to get experience.

Thus, after several years of unremitting strife, the teacher is equipped for life work and is at a point where, it might be expected, trained labor should receive for its service true financial recompense.

To give teachers an adequate return for this preparation and labor, to elevate the teaching force and thus secure better results, I feel sure that in Franklin some salary schedule should be arranged at once. Perhaps something like the following would give the desired results. A trained teacher without experience might receive nine dollars per week. All new teachers of successful experience and all those who have been in our schools one year at nine dollars per week might receive ten dollars per week. Then for the next two successful years one dollar per week might be added.

The above is simply an illustration of a schedule which would offer successful teachers considerable inducement to remain for several years and show them material appreciation of their work. Should the above or a similar scale of salaries be arranged, I believe definite results would soon be realized.

COURSE OF STUDY.

During the year a new course of study has been printed. This does not mean that any radical change has taken place, but simply that changing conditions, improving methods, and general development are elements constantly at work to reconstruct any course of study. A course should never be a dogmatic code to dictate the exact quantity or kind of material to be taught. Any school that does not deviate at times from its printed course of study can never find opportunity for improvement.

The new course changes the work of the last four grades more than that of the first four. In mathematics, language, geography, and history more advanced work is being done. This comes about from two causes. As the pupils pass from grade to grade great care is used so that as little time as possible be lost. Often at the beginning of the year teachers think that pupils are not doing the work that they ought when the trouble really lies in the fact that the pupils, not being familiar with the ways and methods of their new teacher, do not at once show the fullness of their training. In such cases a word to the teachers may save a class a great delay and establish a better relation between teachers and pupils.

The second reason why the children in the upper grades are doing more work is because of the stress laid upon reading throughout the course. The better a child can read the more independent study he can do.

My belief in the importance of being able to read well has led to more change in the course in reading than in any other subject. In the first place, the New Educational Series of readers has taken the place of the Ward Readers. The new readers combine good type and pictures with a clear phonetic system and excellent reading material. Where these readers have been given a thorough test, better results have been obtained; more material has been read; a greater power to do independent reading has been acquired; and more enjoyment and practical value has accrued to the pupils from increased ability.

In the first grade, the first two books of the series are

to be read before any other books are placed in the hands of the pupils, and in the second grade, the third and fourth books. Thus the children are to have a thorough and systematic drill on the fundamental principles of reading before doing much, if any, supplementary work.

The remainder of the reading course has not been much changed. In its arrangement an endeavor has been made to acquaint the pupils, to a limited extent, with classic stories and literature, with a hope that, in some, a profitable reading habit may be formed.

UNGRADED SCHOOLS.

The ungraded school problem has been somewhat modified during the year. Only three of the smaller ones are now open—the Shaw's Corner, Pond, and Call. These, on account of locality and number of pupils, have been in session the full school year, with the exception of the Call, which had no winter term.

At the opening of the fall term it was found that the number of pupils near the Maplewood school was much smaller than usual, so arrangements were made for their transportation to the Falls. During the winter and spring terms the Webster school was in session. However, some of the parents, realizing the advantages of the village schools over the ungraded, sent their children from the very first to the Nesmith at their own expense, and before the end of the spring term the majority of the parents were doing the same. This seemed to be sufficient evidence to warrant closing the school and transporting the children to the Nesmith. This was done during the fall term and, as far as is known, gave general satisfaction. The children of the Simonds school are being brought to the Nesmith or are attending the Call school.

The Morrison school is a good field for work. A teacher's duties here are more arduous on account of numerous classes, than those of the grades in the villages. I hope that another year more money may be put into the educational interests of this locality and perhaps greater results may be obtained.

MANUAL TRAINING.

I should not feel that this report was complete unless it contained some reference to the subject of manual training. Since the last annual report, the conditions which might lead to the establishment of such a course have not materially changed. As the city grows and the tendency of the population to centralize increases, the greater the necessity for offering both boys and girls opportunity to cultivate the use of their hands. It may not be wise to introduce manual training next year, but still it must come in the near future. This issue is pushing itself more and more to the front each year. Most other places in New England of the size of Franklin give more or less time to this line of work. In most towns both boys and girls are afforded opportunity to receive some manual instruction. However, as no one drug is a panacea for all ills, so manual training will by no means remedy all the defects of our school system. Yet it would certainly add much to the efficiency of the work and the fullness of the course of study.

CONCLUSION.

I take this opportunity to thank all those who have shown an interest in the schools and their work. The stronger the bond of sympathy between the schools and citizens and the greater the knowledge and interest of parents, just so much the broader the work and the greater the results. I am always glad to receive any inquiries in regard to school work and make appointments for visiting schools. I feel that time spent in this kind of work may be the most profitable of my labors. Many adverse criticisms, which are often made without careful thought, might be easily answered by a few minutes of observation. To see is to know.

It is to the activity, good judgment, and earnest service of the board of education that the schools, to a large extent, owe their success. I thank the members of the board for their hearty co-operation and support. Their aid has greatly assisted in the year's work.

Respectfully submitted,

H. C. SANBORN.

HIGH SCHOOL REPORT.

I herewith respectfully submit my report for the High school for sixteen weeks of the present school year.

The High school is in very good condition and compares very favorably with other high schools of the state. This is an age of rapid progress; not only are the colleges demanding more and higher requirements for admission, but the competition in the ordinary vocations of life is becoming keener and sharper, so that the young man or young woman who does not intend to enter college but wants to go into business, requires a more thorough and practical education than formerly. The earlier and the more thoroughly the boys and girls of our school realize this fact, the less often shall we be confronted by that old and familiar story, "I am going to leave school and go to work. I intend to follow a business life and I don't think it will do me any good to finish my course."

Not only is it necessary to keep the school at its present high standard, but a constant effort must be made to improve and to keep pace with the onward march of knowledge. With this in mind, several changes have been made, which we hope will be of benefit to all.

Beginning with this year, the boys and girls who wish to enter college without Greek are able to begin the study of French or German in their sophomore year, thus enabling them to secure the necessary amount for college entrance requirement without taking a post-graduate course.

Since the last annual report the school has been placed on the list of schools approved by the New England Board of College Entrance Examinations. This gives graduates of the school the privilege of entering almost any of the New England colleges, except Yale and Harvard, without examination, on the principal's certificate of scholarship and good moral character.

A slight change has been made in the method of making up the honor marks at the end of the four years' course. Heretofore the marks for deportment have had nothing to do with the honor marks, but it has always seemed to me

just and fair that the pupil, whose mark in both scholarship and deportment is the highest, should have the highest honor. A daily record of each pupil's deportment is kept by each teacher, and from these records a pupil's mark is made up at the end of each term. The deportment mark will be considered the equivalent of one study.

The mathematics teachers are using the "Inductive Method" in teaching plane and solid geometry. They believe that the system leads pupils to think more clearly and to express themselves more accurately.

The science department is comparatively new, and, while much has been done in the past year or two, yet several things are needed to bring it thoroughly up-to-date. After this department is once thoroughly equipped it will need only a small sum expended each year to keep it up. The most urgent need now is that water should be put into the laboratory for the use of individual pupils. A lecture table with its equipments is also needed in order to enable a teacher to do the most satisfactory work.

In the English department we are in need of more reference works. I would recommend that the school be supplied with a Century dictionary, since this is invaluable to all departments.

I would respectfully suggest that in the equipment of the new public library, special attention be given to the selection of books of reference suitable for use in connection with high school work.

It seemed desirable that the pupils receive some systematic and practical drill in elocution, so this has been added to the curriculum this year. The plan of the course, as outlined now, is for the different classes to do both class and individual work. The class work will consist of lectures and recitations, while the individual work will be applied to some special selection. Sometime during the year the undergraduate classes will give a public exhibition showing what has been accomplished in this work.

The Debating club is in a prosperous condition. The boys show an active and energetic spirit in their debates. Plans are on foot for a debate in the near future with one of the prominent schools in the state.

In closing, I wish to make an earnest plea to the parents of pupils for you to visit the school and become acquainted with the teachers. You may be able to tell us in a few minutes some peculiar trait or characteristic of the child which it will take us weeks or even months to find out. It is when there is hearty co-operation between teacher and parent that the most perfect results are obtained.

Respectfully submitted,

F. W. BURRILL,

Principal.

DRAWING TEACHER'S REPORT.

Mr. H. C. Sanborn, Superintendent of Schools:

Our course in drawing has been changed but little from last year's.

As the sub-freshmen took their drawing last year with the ninth grade, new work has been introduced to vary the course from the regular ninth grade drawing.

In the junior class we have tried, with pleasing results, painting with water color the finished charcoal drawing.

It seems a great mistake that pupils, especially those expecting to attend a normal school, should not take drawing through their entire High school course. Under the present conditions pupils cannot be expected to take time for drawing.

In the grades better drawing has been done than in any previous year. The same can be said of the High school work.

I wish to thank the teachers for their co-operation and the superintendent for counsel and aid.

Respectfully submitted,

LUCY N. NELSON.

MUSIC TEACHER'S REPORT.

Mr. H. C. Sanborn, Superintendent of Schools:

DEAR SIR: No changes of importance in the department of music have taken place during the past year.

The usual number of lessons have been given and, as in the past, encouragement has been received and difficulties encountered.

Effort is being made to secure independent thought and action, for a class is very apt to depend upon leading voices and a mistake from one good, true voice will often lead others astray.

In many of our classes there are those who have come from schools where music is not systematically taught. Such pupils advance slowly and with difficulty, often requiring the personal attention of the teacher in charge. We occasionally find pupils who, through lack of interest, often caused by lack of home encouragement, neglect the privileges and opportunities given them and therefore fail to receive the benefit they ought. How to excite their interest and do for them all that is needed in the short time allotted is an ever-present problem.

Sometimes we find a pupil without power to locate the tones of the scale or comprehend their relationship. Such children find little pleasure in music.

On the other hand, the great majority of pupils enjoy their school music and usually I am delighted with the enthusiasm which prevails and the progress shown.

Allow me, in conclusion, to thank the board of education and the superintendent of schools for the liberal supply of music material and the teachers for cheerful co-operation and faithful service.

Yours respectfully,

ELIZABETH CLEMENT.

FRANKLIN, January 18, 1905.

DIRECTIONS FOR CLOSING SCHOOLS IN BAD WEATHER.

The fire alarm of the city will be rung for the close of schools when, in the judgment of the board, the severity of the weather or the bad condition of traveling demand it, as follows:

For no forenoon session, at 8.15 o'clock a. m.

For one session, at 11.30 a. m.

For no afternoon session, at 12.45 p. m.

The signal affects only the session for which it is given.

Whenever the signal is given at 11.30 for one session the sixth grade and all below will be dismissed for the day at 12 o'clock. The High and other grades will be dismissed at 12.30.

If at any time pupils appear at school through failure to hear or understand the signals, teachers who may be present, or the janitors of the buildings, are directed to care for them as may be necessary and not turn them back before they have opportunity to get rested and dry.

Teachers will keep the pupils well informed of this arrangement and caution them to listen for the signals at the times mentioned.

RESOLUTIONS.

In the year of our Lord one thousand nine hundred and four.

A Resolution relating to the appointment of Standing Committees of the City Council.

Resolved by the City Council of the City of Franklin, as follows:

That the Mayor be authorized to appoint the following Standing Committees of the Council, to be appointed one from each ward, viz.:

On highways,
fire department,
police,
schools,
public buildings,
ordinances,
street lighting,
cemeteries,
finance, to consist of the Mayor and two members
of the Council.

Approved.

ISAAC N. BLODGETT, *Mayor.*

Passed Jan. 4, 1904.

In the year of our Lord one thousand nine hundred and four.

A Resolution relating to hiring money.

Resolved by the City Council of the City of Franklin, as follows:

That the Mayor and City Treasurer, for the time being, are hereby authorized to hire money to pay the current expenses of the several departments, and any outstanding notes, bonds, or evidences of debt of the city becoming due, and to give promissory notes of the city therefor.

Approved.

ISAAC N. BLODGETT, *Mayor*.

Passed Feb. 1, 1904.

In the year of our Lord one thousand nine hundred and four.

A Resolution accepting the offer of Andrew Carnegie of fifteen thousand dollars for a library building.

WHEREAS, Andrew Carnegie has agreed to furnish fifteen thousand dollars to the City of Franklin, N. H., to erect a Free Public Library Building on condition that said city shall pledge itself by resolution of Council to support a free public library at a cost of not less than fifteen hundred dollars a year and provide a suitable site for said building; now, therefore, be it

Resolved, by the Council of the City of Franklin, that said city accepts said donation and it does hereby pledge itself to comply with the requirement of said Andrew Carnegie.

Resolved, That it will furnish a suitable site for said building and will maintain a free public library in said building when erected at a cost of not less than fifteen hundred dollars a year.

Approved.

ISAAC N. BLODGETT, *Mayor*.

Passed March 14, 1904.

In the year of our Lord one thousand nine hundred and four.

A Resolution relating to site for Carnegie Library Building.

Resolved by the City Council of the City of Franklin, as follows:

That a site for the Carnegie Library Building shall be furnished without expense to said city.

Approved.

ISAAC N. BLODGETT, *Mayor*.

Passed March 14, 1904.

In the year of our Lord one thousand nine hundred and four.

A Resolution relating to estimate of departments for the year.

Resolved by the City Council of the City of Franklin, as follows:

That each department of the City Government through the committee having charge of said department be and are hereby required to file with the City Clerk before April

20th a written statement of the necessary work to be done by said department for the year 1904 and the estimated cost of the same and such recommendations for improvement as may seem to them for the best interest of the city.

Approved.

ISAAC N. BLODGETT, *Mayor*.

Passed April 4, 1904.

In the year of our Lord one thousand nine hundred and four.

A Resolution relating to raising money by taxation for the year 1904.

Resolved by the City Council of the City of Franklin, as follows:

That the sum of fifty thousand, four hundred and ninety-three dollars and twenty cents be raised by taxation the present year, and that the assessors be instructed to assess and levy a tax for that amount in the following manner, viz.:

State tax	\$4,476.00
County tax	9,857.57
School money by law	8,952.00
Public library	1,500.00
	<hr/>
	\$24,785.57

And the sum of twenty-six thousand, five hundred dollars, to meet the current expenses provided for by the appropriations made, and that the same be appropriated with the other revenues of the city to meet the same.

Approved.

ISAAC N. BLODGETT, *Mayor*.

Passed May 19, 1904.

A Resolution relating to sewers and the entering thereof.
*Be it resolved by the City Council of the City of Franklin,
as follows:*

Section 1. The Board of Health is hereby directed and instructed to compel all persons dwelling upon the line of any public sewer, now or hereafter to be constructed, and within one hundred feet thereof, to enter the same straight-away upon its completion.

Sec. 2. Said board is further directed to compel any person having entrance to a private sewer on any street or way through which any public sewer may now or hereafter pass, to abandon such entrance forthwith upon the completion of such public sewer.

Approved.

ISAAC N. BLODGETT, *Mayor.*

Passed May 22, 1904.

In the year of our Lord one thousand nine hundred and four.

A Resolution in relation to the discount in the collection of taxes.

Resolved by the City Council of the City of Franklin, as follows:

To such as pay their taxes on or before the first day of August next will be entitled to a discount of three per cent., and the Collector shall give notice to all persons whose poll tax remains unpaid September 1, and if the same is not paid in fourteen days thereafter twenty cents shall be added.

Approved.

ISAAC N. BLODGETT, *Mayor.*

Passed June 6, 1904.

In the year of our Lord one thousand nine hundred and four.

A Resolution relating to exemption from taxation.

Resolved by the City Council of the City of Franklin, as follows:

To exempt from taxation for the term of ten years from this date such additional machinery, buildings, stock in trade and capital as Glines and Stevens Brothers or their successors may invest in to enlarge and develop the wood-working business in Franklin in which they are now engaged; also such buildings as may be erected and such machinery and fixtures as may be placed therein by Roxie B. and Eliza T. Shepard on Elkins St., or that vicinity, for the use of said Glines and Stevens Brothers in such manufacturing, provided that the expenditure for such buildings and machinery shall not be less than four thousand dollars. not intending hereby to exempt any property now taxable.

Approved.

ISAAC N. BLODGETT, *Mayor*.

Passed Nov. 7, 1904.

In the year of our Lord one thousand nine hundred and four.

A Resolution relating to salary of police justice.

Resolved by the City Council of the City of Franklin, as follows:

On and after January 1, 1905, the salary of the justice of the police court of Franklin shall be three hundred dollars per annum less such sums as the city may in any year

have become liable to pay any associate justice or justices provided no such deductions shall be allowed to decrease the salary of said justice to a less sum than one hundred dollars per year.

Approved.

ISAAC N. BLODGETT, *Mayor*.

Passed Dec. 19, 1904.

In the year of our Lord one thousand nine hundred and four.

A Resolution

Resolved by the City Council of the City of Franklin, as follows:

That the thanks of the City of Franklin be tendered to Mrs. Charles C. Kenrick for her generous offer of land in Ward one for the use of a free public library thereon.

Approved.

ISAAC N. BLODGETT, *Mayor*.

Passed Dec. 19, 1904.

ORDINANCES.

An Ordinance relating to sewers.

Be it ordained by the City Council of the City of Franklin as follows:

Section 1. That the resolution of the City Council adopted May 10, 1895, relating to sewers, be and the same hereby is so far modified as to provide for a special assessment or charge only on such persons or corporations as have already, or may hereafter, connect with the new system of sewerage.

Sec. 2. That no person or corporation shall be required to connect with any sewer except by direction of the Board of Health of the city or the City Council.

Sec. 3. All persons who have already, or shall hereafter connect with the new system of sewerage, shall pay to the city the following sums, to wit: For each tenement of seven rooms or less, fifteen dollars; for each additional room in a tenement in excess of seven, two dollars.

Space in buildings occupied wholly or in part for stores, manufacturing, or other purposes than private barns, cellars and store houses or store rooms, or outbuildings, shall be reckoned and paid for on the basis of one hundred and fifty square feet of floor space as one room when connected with the sewer.

Sec. 4. All persons who have already connected with the new system of sewerage shall pay to the City Clerk the amounts for which they are liable under the provisions of

Section three within thirty days after the passage of this ordinance, with interest thereafter, and the City Clerk is hereby directed to collect the same.

Sec. 5. No person shall hereafter connect with any public sewer without first obtaining a permit therefor signed by the City Clerk and countersigned by the Highway Agent, and before such permit is issued to connect with the new system of sewerage such person shall pay to the City Clerk the sums for which he would be liable under the provisions of Section three.

Sec. 6. In any case where connection with a sewer is made by the Board of Health, through the neglect or refusal of the owner to comply with their orders so to do, the amount provided to be paid therefor in Section three shall become at once due and payable and collected by the City Clerk, but the City Clerk may issue a permit in such cases without prepayment.

Sec. 7. Every permit to connect with any public sewer issued by the City Clerk shall contain the name of the owner, the number of tenements and rooms in each for which the permit is granted, the location of the tenements and amount paid for such permit, a record of which shall be made by the City Clerk in a book kept for that purpose.

Sec. 8. All connections with any public sewer shall hereafter be made under the supervision of the Highway Agent and in accordance with his directions, and it is hereby made the duty of the Highway Agent to see that all such connections are securely made and in the safest and best manner, and that only proper pipe and other materials are used.

Sec. 9. No person or corporation shall deposit any garbage, coal, filth or any substance having a tendency to obstruct the flow of sewage in any manhole, flush tank or sewer opening.

Sec. 10. All fixtures connected with private sewers leading to the public sewers shall be provided with suitable traps and strainers to prevent the introduction of all solids or anything that would obstruct the flow in the pipes.

Sec. 11. Any person violating the provisions of Sections five and eight, nine and ten of this ordinance shall be fined not less than twenty dollars.

Sec. 12. This ordinance shall take effect upon its passage.

Approved.

E. H. STURTEVANT, *Mayor*.

Passed May 4, 1896.

An Ordinance relating to building in the compact part of the city of Franklin, as follows:

Be it ordained by the City Council of the City of Franklin as follows:

Section 1. No buildings shall hereafter be erected on the north side of Central street, between Sanborn bridge and Daniell bridge, on the south side of Central street between Sanborn bridge and Church street, on Franklin street between Central street and Church street, except the same is constructed with solid outside brick walls at least twelve inches thick.

Sec. 2. This ordinance shall take effect upon its passage.

Approved.

E. H. STURTEVANT, *Mayor*.

Passed May 4, 1896.

An Ordinance relating to sewers and in amendment of an ordinance passed May 4, 1896.

Be it ordained by the City Council of the City of Franklin, as follows:

Section 1. Any person connecting with a public sewer, who will sign a written request therefor, may pay an annual rental or tax as follows: For each tenement of seven rooms or less, \$2. For each additional room, in a tenement, thirty cents payable in advance. The first payment when the permit is granted, subsequent payments to be collected by the Collector with other taxes.

Such rental shall cease whenever such party shall pay the fee heretofore prescribed and any sums due for such rental.

Sec. 2. This ordinance shall take effect upon its passage.
Approved.

E. H. STURTEVANT, *Mayor*.

Passed Nov. 2, 1896.

An Ordinance for the promotion of cleanliness in public streets and places.

Be it ordained by the City Council of the City of Franklin, as follows:

Section 1. No person shall distribute in any public highway, within the city, any printed hand-bill, circular, or advertisement of any kind.

Sec. 2. No person shall place, throw or deposit upon any public highway, within the city, or upon any sidewalk therein, any paper, garbage, waste or refuse matter of any kind.

Sec. 3. No person shall spit upon the floor of any public conveyance, shop, store, hall, church, school house, railroad station or other public building in said city, or upon the steps of said conveyances or buildings, or upon the sidewalk of any public street or way in said city.

Sec. 4. Any person convicted of any violation of either section of this ordinance shall be fined not exceeding ten dollars.

Sec. 5. This ordinance shall take effect from and after its passage.

Approved.

FRANK H. DANIELL, *Mayor*.

Passed Oct. 2, 1899.

An Ordinance relating to cemetery trust funds.

Be it ordained by the City Council of the City of Franklin, as follows:

Section 1. That Chapter 40, Session Laws of this state for 1899, in which it is provided that (section 1) :

“Any town or city which now holds, or hereafter may hold in trust, by bequest or otherwise, any fund for the care of any cemetery or private lot therein, may pay the same into the town or city treasury, and so long as the same remains therein, said town or city shall pay thereon an annual income at the rate of three and one-half per cent., which income shall be expended in accordance with the terms of the trust by which said fund or funds is held. (Section 2.) This act shall not be in force except in such towns and cities as by vote of the town, or City Council shall so elect.”

Be and hereby is adopted and in force in this city, and the City Council so elects.

Sec. 2. This ordinance shall take effect and be in force upon its passage.

Approved.

RUFUS G. BURLEIGH, *Mayor*.

Passed Sept. 3, 1900.

An Ordinance in relation to the duties of the City Auditor.

Be it ordained by the City Council of the City of Franklin, as follows:

It shall be the duty of the City Auditor annually, in the month of December, to examine the accounts of the Collector of Taxes and to notify every delinquent tax-payer of the amount of his taxes remaining unpaid, by mailing to each in a sealed envelope a copy of this ordinance, together with a statement of the balance due as it appears upon the tax list.

Approved.

RUFUS G. BURLEIGH, *Mayor*.

Passed Dec. 3, 1900.

An ordinance in relation to licensing dealers of junk.

Be it ordained by the City Council of the City of Franklin, as follows:

Section 1. That all dealers in old metals, rubbers, rags or junk of any sort shall be licensed.

The said license shall be issued by the City Clerk upon recommendation of the Mayor.

The cost of said license shall be three (3) dollars per annum, dating from April 1st, for the year ensuing.

Sec. 2. That no dealer shall buy of any minor, under fifteen years of age, any old metals, rubber, rags or junk of any sort, without written consent of their parents or guardian.

Sec. 3. Any person convicted of violating the provisions of sections 1 and 2 of this ordinance shall be fined a sum not exceeding twenty (20) dollars for each offense.

Sec. 4. This ordinance shall take effect upon its passage.
Approved.

RUFUS G. BURLEIGH, *Mayor*.

Passed April 1, 1901.

An Ordinance relating to the names of streets and their numbers.

Be it ordained by the City Council of the City of Franklin, as follows:

Section 1. That the names of the streets of the city of Franklin shall be as indicated on the map in the annual report of the city of Franklin, of 1895, with addition of new streets and avenues since laid out with the following exceptions: That the southern section of Pemigewasset street, running east from North Main street, shall be known as Gerrish street. That the street running from Depot street to Franklin Heights shall be known as Summit street. That the street leading north from Summit street to Pleasant Valley shall be known as Valley street. That the street west of Valley street, leading south from Summit street, shall be known as Gilman street. That the street running north from Central street, near Republican bridge, to Cate brook, shall be known as Glenwood avenue. That

the street running northwest from Bow street over Cheney hill to Glenwood avenue, shall be known as Cheney street. That the street running west from Bow street past what is known as Davis' block to Glenwood avenue, shall be known as Glen street. That the section of Maple street, running north from foot of Willow hill, then east to that section of Maple street running north, shall be known as Willow street. That the section of Winnipiseogee street running south from Central street to that section running east, shall be known as River street. The street running east, then north from Franklin street, opposite Church street, shall be known as Ayles Court. That the section of High street east of the Franklin & Tilton R. R., shall be known as East High street, and that section west of said railroad shall be known as West High street. That the street running east from Memorial street to Smith street shall be known as Canal street. That the name of Peabody avenue shall be changed to Peabody place. That the name of Railroad avenue shall be changed to Railroad street.

Sec. 2. The Mayor and Council shall from time to time, as the convenience of the public may require, designate the numbers to be affixed to the buildings on the several streets and squares in the city, and shall designate the names of new streets when laid out. In all streets the odd numbers shall be on the right hand side, and the even numbers on the left hand side of the streets in the progressive order of numbering, commencing with the lowest numbers and proceeding therefrom with increasing numbers as follows: The numbering of North Main street shall commence at the southerly end at junction of Central and South Main streets. The numbering of all streets connecting with North Main shall commence at North Main street. The numbering of South Main street shall commence at the

northerly end at junction of Central and North Main streets. All streets connecting with South Main shall commence numbering at South Main street. The numbering of Summit, Wells and Salisbury streets shall commence at Depot street. The numbering of Valley and Gilman streets shall commence at Summit street. The numbering of Central street shall commence at the westerly end at junction of North and South Main streets. All streets connecting with Central street, except Bow and Pearl streets, shall commence numbering at Central street. Bow street shall commence numbering at what is known as Paper Mill square. All streets connecting with Bow street shall commence numbering at Main street. The numbering of South Main street shall commence at Glenwood avenue. The numbering of Pearl street shall commence at the southerly end. The numbering of Canal street shall commence at Memorial street. The numbering of School, West, High, and Winnipiseogee streets shall commence at River street. The numbering of Ayles Court and Grove street shall commence at Franklin street. The numbering of Railroad, Elkins and View streets shall commence at School street. The numbering of East High and Russel streets shall commence at Railroad street. The numbering of Spring street shall commence at Prospect street. The numbering of all streets running east from Prospect street shall commence at Prospect street. The numbering of all streets east of Prospect street running parallel with Prospect street shall commence numbering at the northerly end. All streets connecting with Sanborn street shall commence numbering at Sanborn street.

Sec. 3. Every entrance to a building fronting the street shall be designated by a separate number. In the residential portion of the city every lot with a twenty-five-foot front shall be designated with a separate number, and in the

business portion of the city every lot with a twelve and one-half-foot front shall be designated with a separate number. The business portion of the city is embraced within the following limits: North and South Main street between Webster and Depot streets, Central street between River street on the west and Bow street on the east, Smith, Canal, Memorial and Church streets and Franklin street from Central to School streets.

Sec. 4. Any person who shall affix or suffer to be affixed to or shall allow to remain upon any building, any different number from the one designated by the Mayor and Council, shall be fined not less than one or more than five dollars, and a like penalty for every day he shall suffer such building to be so numbered after his first conviction of violating the provisions of this section.

Sec. 5. That measurement of each street in the city shall be made according to provisions of section three of this ordinance, determining the correct number of every entrance as provided for in section three of this ordinance, and that a correct record of same shall be kept on file in the office of the City Clerk in a convenient manner for the reasonable use of the public at all times. That there shall be transmitted by the person authorized by the committee on ordinances to make said survey, a notice and statement giving name of the street, the name of the owner, the name of the occupant, and the number of the building, together with instructions for procuring and fixing same.

Sec. 6. That the owner of the property shall within sixty days after receiving said notice as per section five of this ordinance, cause to be affixed to every entrance of a building fronting the street, mentioned in said notice, a metallic or other suitable number at least two inches in height, and so situated as to be plainly visible at all times from the street.

Sec. 7. If the owner of any building, after receiving said notice as per section five of this ordinance, fail to comply with the provisions of section six of this ordinance, the said owner shall be fined not less than one or more than five dollars, and a like penalty for every day which the said owner shall neglect so to do after his first conviction.

Sec. 8. This ordinance shall take effect on its passage.

Approved.

RUFUS G. BURLEIGH, *Mayor*.

Passed April 1, 1901.

An Ordinance in relation to attendance of scholars.

Be it ordained by the City Council of the City of Franklin, as follows:

Section 1. Any child in the city between the ages of six and sixteen years, without a regular and lawful occupation, who shall, except in cases of ill health, be absent from school more than one day during the space of any one month, unless excused by the teacher of the child, shall be fined not exceeding ten dollars for each offense.

Sec. 2. This ordinance shall take effect on its passage.

Approved.

RUFUS G. BURLEIGH, *Mayor*.

Passed May 13, 1901.

An Ordinance relating to fire alarms.

Be it ordained by the City Council of the City of Franklin, as follows:

Section 1. When an alarm of fire has once been given upon the fire alarm system of the city, it shall be the duty

of the person giving the alarm to remain at the box in charge of the same until the arrival of some person detailed to guard such box, except when the fire is upon the premises of the person giving such alarm.

Sec. 2. No person shall ring in a second alarm except under the direction of an engineer of the fire department.

Sec. 3. The chief engineer, or in his absence one of the assistant engineers, shall at once, upon the sounding of an alarm upon the fire alarm system, detail some person to supervise and watch the box from which the alarm was given, and it shall be the duty of such person to remain at said box and protect the same from any person interfering therewith until he is relieved by said engineers.

Sec. 4. Any person violating the provisions of this ordinance or disobeying the orders of an engineer under it shall be liable to a fine not exceeding twenty dollars for each offense.

Sec. 5. This ordinance shall take effect on its passage.

Approved.

RUFUS G. BURLEIGH, *Mayor*.

Passed June 3, 1901.

An additional Ordinance for the promotion of cleanliness in public streets and places.

Be it ordained by the City Council of the City of Franklin, as follows:

Section 1. No person or corporation in possession or control of any real estate adjoining a public street, shall place or permit to remain on the premises so occupied by him, any paper or waste matter or substance of any kind, in such

a position or place that the same can be carried by the wind upon a public street.

Sec. 2. Every person or corporation keeping for sale at retail on premises adjoining a public street, fruit, nuts, or other goods from which waste is liable to be thrown upon such street, shall keep the highway abutting on the premises occupied by him to the center thereof free and clear of waste substances and matter from such class of goods as are kept for sale by him at such store, and shall keep and maintain in a wholesome condition all such receptacles for waste matter as may be located by the city upon or adjoining the premises occupied by him.

Sec. 3. No person shall injure, disfigure, destroy or remove any receptacle for waste matter placed by the city upon any public street or place, or place therein any substance for which such receptacle was not designed.

Sec. 4. It shall be the duty of the city marshal and every policeman when on duty to see that this ordinance is strictly observed, and when unable to cause the removal of any such waste matter from the streets by the person depositing the same, he shall forthwith remove the same himself.

Sec. 5. Any violation of this ordinance shall be punished by a fine not exceeding ten dollars.

Sec. 6. This ordinance shall take effect on its passage.

Approved.

RUFUS G. BURLEIGH, *Mayor*.

Passed Aug. 5, 1901.

Resolved by the City Council of the City of Franklin, as follows:

That the following rule for governing the action of the Council be and the same hereby is adopted.

RULE 1.

No vote shall be adopted by the Council appropriating money, or incurring a debt exceeding five hundred dollars, at the same meeting at which the resolution is proposed, except by vote in favor thereof by seven members at least of the Council taken by a yea and nay vote.

Approved.

RUFUS G. BURLEIGH, *Mayor*.

Passed Nov. 4, 1901.

An Ordinance for the prevention of accidents upon the highways.

Be it ordained by the City Council of the City of Franklin, as follows:

Section 1. No person shall drive any horse upon the highways of the city with a cow-bell or any other thing attached to the horse, harness or vehicle, that makes an unusual noise and frightens horses.

Sec. 2. Persons directing automobiles or other vehicles propelled by motors upon the highways of the city, shall upon meeting or passing other vehicles drawn by horses, which are frightened thereby, come to a full stop or reduce the rate of speed to such extent as necessary to avoid accidents resulting from such frightened horses.

Sec. 3. Any person convicted of a violation of either section of this ordinance shall be fined not exceeding ten dollars.

Sec. 4. This ordinance shall take effect on its passage.

Approved.

HARRY W. DANIELL, *Mayor*.

Passed April 9, 1902.

An Ordinance in relation to removal of buildings.

*Be it ordained by the City Council of the City of Franklin,
as follows:*

Section 1. That no building or buildings in the city shall be moved through highways except by owner first obtaining permit from the City Council.

Sec. 2. This ordinance shall take effect on its passage.

Approved.

HARRY W. DANIELL, *Mayor.*

Passed Aug. 4, 1902.

In the year of our Lord one thousand nine hundred and four.

An Ordinance relating to billiard, pool and lunch rooms.

*Be it ordained by the City Council of the City of Franklin,
as follows:*

Section 1. No owner or manager of a public pool or billiard room shall allow his pool or billiard tables to be used after ten o'clock at night.

Sec. 2. Any person violating this provision shall be punished by a fine of ten dollars.

Sec. 3. No keeper of any eating place, lunch counter or room shall keep his place open after eleven o'clock at night.

Approved.

ISAAC N. BLODGETT, *Mayor.*

Passed March 7, 1904.

In the year of our Lord one thousand nine hundred and four.

An Ordinance relating to injury to the highways and other city property.

Be it ordained by the City Council of the City of Franklin, as follows:

Section 1. No person shall with any trenching tool or machine displace the surface of any highway within the city boundaries without permission from the Council or from the chief of the highway department, as the case may be.

Sec. 2. No person shall erect, raise or place any sign, bill-board or other obstruction on or within any highway, nor shall any such person erect, raise, place or affix sign, bill-board or advertisement on any lands of the city or any building thereon without consent previously obtained from the Council or head of the appropriate department.

Sec. 3. Any person violating any provisions of this ordinance shall be fined ten dollars for each and every offense.

Approved.

ISAAC N. BLODGETT, *Mayor*.

Passed May 2, 1904.

Vital Statistics.

VITAL STATISTICS.

To the City Council of the City of Franklin: In compliance with an act of the Legislature, passed June Session, 1887, requiring "clerks of towns and cities to furnish a transcript of the record of births, marriages and deaths, to the municipal officers for publication in the annual report," I hereby submit the following:
